

GREAT SHOW AT UTAH THEATRE

IN ALL THE WORLD, NO
PICTURE LIKE THIS

CLARA KIMBALL YOUNG

in
"For the Soul of Rafael"

From the wonderful book by Maria Ellis Ryan, reprinted in
eight languages and read by more than ten millions of people

HAVE you ever pictured in your mind's eye a perfect motion picture, perfect
in theme, plot, story, action, suspense, and love element? Have you ever
tried to visualize a photo drama so entrancing, so gripping, and so highly
entertaining as to make you walk miles if necessary to see it?

Seek no further. It's here in "FOR THE SOUL OF RAFAEL," in which
Clara Kimball Young does the finest work of her entire long career in pictures.

Here is the sum total of perfection of photo dramatic triumphs. Here is
the picture moulded by the master hand from a story by a master mind, an
entrancing assembly of every element that makes for supreme entertainment.

We simply can't tell you the story. It's too splendid to tell in
cold type. If you've read—"FOR THE SOUL OF RAFAEL," you
know in what wondrous colors this tale is told, how alluring, how golden
and beautiful must be the scenes of these days of yesterday when
knights were bold and ladies were enrapturing. THIS IS THE
ONE PRODUCTION OF THE SEASON YOU MUST NOT MISS,
brought here at great expense.

AND THE WORLD'S GREATEST
COMEDIAN, BUSTER KEATON,
IN "ONE WEEK"

WEBER GYM'S COST SOARING

Original Estimate Raised by
High prices; D. O. McKay
Explains Situation

The Weber college gymnasium cannot be built for \$200,000, the original estimate, the cost of construction alone, owing to increased cost in material and labor has been raised to \$300,000, according to information given by Apostle David O. McKay, to the priesthood of the Ogden, Weber and North Weber stakes at a special meeting held in the tabernacle yesterday afternoon at which the problem was discussed for three hours.

It was explained by Apostle McKay that the opportunity already made to the various wards in the city and county will not be raised by the increased cost of construction. The extra \$100,000 will be raised by the board of education. Half of the amount will be secured by local subscriptions from business men and the other half will be donated by the trustees in trust of the Latter-day Saints church.

An educational campaign for the purpose of raising funds for the gymnasium is to be started next Sunday when special speakers will discuss the subject in every ward of the three local stakes. The list of speakers includes prominent church officers and educators from Salt Lake, Ogden, Logan and Provo.

OPEN DISCUSSION

There was a free and open discussion of the subject at the meeting held yesterday when a large number of bishops told of difficulties experienced in raising their quota. This difficulty was especially reported by the bishop of the county wards where it was reported that the people fail to see that benefits they will derive from an institution to be located in the city. Bishop S. Hinckley, secretary of the Deseret gymnasium in Salt Lake, and Adam S. Bennion, superintendent of church schools, delivered addresses at the meeting in which they urged support to the Weber gymnasium. Supt. Bennion said that if a building was erected costing only \$100,000 as was originally suggested, it would have been a great mistake that would have been regretted. He appreciated the wisdom of the church officials in looking into the future.

Supt. Bennion declared that a large number of young people were going on the wrong road because no proper provisions had been made for their moral uplift at the end of the day's work. They were sent adrift to seek their own amusement and were often found in the cellars of destruction. He pointed out to the people today that they were paying high wages and spending all they earned and he thought a portion of those wages should be diverted into the proposed gymnasium for this city. He likened the gymnasium to a safety deposit where the people should be willing to place their children in preference to allowing them to wander into temptation.

TO MAKE GOOD CITIZENS

Mr. Hinckley said that the mission of the church is to make good citizens of men and women in the world and this could be done, physically and morally, by the erection of the gymnasium. He produced a large number of letters from business men in Salt Lake who testified to the great benefits derived from the Deseret gymnasium. Boys and girls who attend the Deseret gymnasium have the physical defects corrected and they are taught to keep themselves physically fit and morally clean. Forty per cent of the high school girls need some correction of posture, he said.

A motion was adopted in which the ward bishops pledged their support to the gymnasium and promised to raise their quotas as soon as possible.

Treasurer John Watson read a financial statement showing that to date the sum of \$24,432.10 has been collected toward the building fund. The \$200,000 for the construction of the gymnasium does not include the cost of equipment, it explained.

UTAH WOOL CLIP BELOW RECORD

16,150,000 Pounds This Year
850,000 Pounds Less
Than 1919

Figures compiled by the department of agriculture at Washington on wool production show that the clip for 1920 was 255,207,000 pounds as compared with 265,328,000 pounds in 1919. Utah's clip for the current year was shown to be 16,150,000 pounds, or 850,000 pounds less than the clip for 1919.

Idaho this year produced 20,702,000 pounds of wool as against 22,145,000 pounds in 1919.

Wyoming, the largest wool producer in the country, had a clip this year of 28,422,000 pounds as against 31,580,000 pounds last year.

The Montana clip for 1920 was 13,800,000 pounds as compared with the clip for 1919 of 17,450,000 pounds.

Oregon, Arizona and New Mexico are the only far western states which produced as much or more wool this year as in the year preceding. The Oregon clip for the two years is practically the same, 14,040,000 pounds.

Department of agriculture records show that the face value of wool in 1920 was just about half of what it was in 1919, averaging figures collected in all the wool growing states. These figures apply to unwashed wool. The farm value in Utah averaged 45 cents in 1919 and this year is stated to average 35 cents.

In Idaho the farm value dropped from 45 cents in 1919 to 25 cents this year, and in Montana the drop was from 57 cents to 25 cents. No farm values on Wyoming wool are given in the official table. The average drop was from 52 to 25 cents.

Few Soldiers Apply For Victory Medals

(Special Dispatch.)
WASHINGTON, Sept. 20.—Although American Legion posts throughout the country are laying plans for brilliant ceremonies at which veterans of the world war are formally to receive their Victory medals, on November 11, only 255,999 of the 3,700,000 ex-soldiers entitled to the decorations thus far have applied for them, it was announced today by the war department. Naval figures are not included in the foregoing.

There has been an appreciable increase in the number of applications since the legion volunteered to assist the government in the distribution, however. Applications now are coming in at the rate of 4000 a day, while media are being delivered by the manufacturers at the rate of 150,000 a week. Interest in legionnaires generally is centered at present on the coming national convention in Cleveland.

After adjournment on September 25 officials here expect an immediate increase in the number of applications for medals.

To Supply Cement to City Under Protest

Cement furnished for the paving of north Washington avenue, will only be supplied under protest, according to a letter from Ralph E. Bristol, president of the Utah Sales agency, to George F. McGonigle, state engineer. Mr. Bristol explains that Ogden City specifications, which apply on the work, carry a minimum allowance of 5 per cent silt in the sand used, while tests conducted by the cement company engineers reveal 3 per cent silt in the material now on hand.

"In view of your having approved the material," he adds, referring to the action of the joint meeting of state city and county commissions, "we will furnish the cement, but we will furnish it under protest, because we shall feel that your commission and the city of Ogden should enforce the specifications."

Heart Disease Fatal To Henry J. Coppock

Henry James Coppock, constructing engineer for the Ogden Iron Works, died this morning at 3 o'clock at the residence, 458 Washington avenue. He had been ill a week of heart disease.

Mr. Coppock was born in Newcastle, England, July 1, 1853, and had been a resident of Ogden for about twelve years. He leaves a widow, two brothers and a sister in England, a brother living in Denmark, and a brother in Zeila, Wash., and one in Australia. Funeral arrangements are in charge of Kirkendall's.

Kneipp to Be Honored At Weber Club Dinner

A dinner will be given at the Weber club and chamber of commerce Thursday evening at 7 o'clock, honoring L. F. Kneipp, retiring district forester here. Mr. Kneipp has been appointed assistant United States forester at Washington and leaves in the near future to assume his duties at the national capital.

He will be succeeded by R. H. Rutledge of Missoula, Mont.

Materials Arriving For Arsenal Buildings

Materials for the Ogden Arsenal are arriving daily from the east, according to Major Ora Bundy and Captain W. P. Katz, officers in charge of the government work here.

Construction work on the sixty buildings will be started immediately by the Sutherland company of St. Louis, a large force of men already being on the job at the site at Sunset.

More than 1000 men will be on the job within two weeks, according to the contractors.

COME HERE TO LOCATE, GO ON

Prospective Citizens Unable to
Find Housing Facilities;
Children Banned

That Ogden is losing many families who would by choice live here if housing facilities were available, is shown daily at the automobile camping grounds near Lorin Farr park, when tourists, after thoroughly scouring the city in search for houses, are compelled to move on to other cities to make their home, according to Dr. J. N. Elliott, city sanitary inspector.

Dr. Elliott visits the camping ground daily and comes into personal contact with many of the motorists. He said this condition has existed throughout the entire summer. Early this morning, he declared that a family of three, a man, his wife and daughter, were necessarily forced to pack up their belongings and turn their car toward the west although they had spent days in an endeavor to locate in the city of their choice—Ogden.

In this case the man was an automobile expert mechanic searching for a location to open a shop. His wife was also a worker and his daughter an experienced stenographer. The man declared they had traveled through many cities during the summer, but had selected Ogden as the place to settle permanently. Then came days of fruitless searching for a house. They could not afford to buy immediately as their money was needed in their business. They found that it was impossible to rent a decent house at a reasonable figure. At this writing they are speeding to a city that holds forth more hope.

Dr. Elliott declared this is but one of many similar cases with which he has come into contact with this summer. Other families have been driven away, he said, after they had found suitable houses, but their children were not allowed. Fully 100 families which would probably have become good, permanent citizens, have been compelled to turn their faces elsewhere in but the short period of a few months, he said.

MILK PRICES IN OGDEN ARE FAIR

Only Two Cities in U. S. Have
It as Cheap; None
Cheaper

Of more than 100 large cities of the United States, but two are getting their milk as cheap as Ogden. No city in the United States is getting milk any cheaper than Ogden.

This is shown in a government report which reached John Felt, city milk inspector, this morning. It is also shown that cities paying from 20 cents to 25 cents a quart for milk are not obtaining as good product as is sold in Ogden for 12 1/2 cents a quart. The total butter fats of the milk sold in other cities ranges lower than locally, the solids much lower, and in many cities the reports show that cleanliness is not considered such an important item by dairymen as with Ogden milk dealers.

Mr. Felt today, after thoroughly reading the reports of the various other cities, declared emphatically that in no instances are other places obtaining even as wholesome and good product as is sold in Utah, even at prices nearly double that asked by local dealers.

Birmingham, Ala., is paying 25 cents a quart, with the same price prevailing in Jacksonville, Fla.; Atlanta, Ga.; Savannah, Ga.; Little Rock, Ark., is paying 20 cents a quart. Butte, Mont., prices are 20 cents; Lincoln, Neb., 15 cents; Atlantic City, N. J., 18 cents.

There are only two cities in the United States which equal Ogden prices and one of these is Salt Lake City. Milk there sells for 12 1/2 cents in Colorado Springs the price fluctuates between 12 1/2 cents a quart to 13 cents.

In summing up the present conditions in regard to milk sold at retail, Mr. Felt said today: "Ogden consumers can feel fortunate. They are getting a better grade of milk at lower prices than any other city shown in the government report."

ACCUSED PHYSICIAN IN JAIL REFUSES TO EAT

MUSKOGEE, Mich., Sept. 20.—Physician Sany made an unsuccessful effort to forcibly feed Dr. Otto W. Sedgewick, of Whitehall, near here, who has refused to eat or talk since he was arrested Thursday in connection with the deaths of his wife and three-year-old daughter. The bodies were found on the lawn at the physician's home. Examining physicians said death was due to strangulation.

Dr. Sedgewick is said to have fought two physicians who attempted the forcible feeding. A small quantity of water was forced down his throat, however.

GIRLS WANTED—Craig Canning Company at Five Points.

MEETING TODAY ON FALL FETE

Plans for Forthcoming Pa-
geant to Be Discussed at
Community Service Offices

Plans for the fall fete to be staged here October 1 and 2 by Community Service will be outlined at a meeting to be held at the headquarters this afternoon. Miss Marjorie Day, who arrived here last week, to take charge of the two-day celebration, will have charge of the meeting. She will be assisted by Secretary H. W. Arbury.

Representatives of the schools, churches, clubs, lodges, railroads and other organizations will be represented. The fete according to Miss Day, will be one of the greatest ever staged in the west.

Advertising stunts, plans for the various events to be on the athletic card, the outlining of the parade for October 1 and many other features will be threshed out today.

Miss Day has already outlined her program, which will be submitted to the members of the various organizations for approval. She has had several years of experience at pageant work and expects to give Ogden a banner representation in the coming celebration.

More than 1000 men, women and children will take part in the pageant. Representatives of the Ogden schools have offered their services in the coming show and they have been accepted.

The athletic carnival for girls will be one of the interesting phases on the program, according to Miss Kiegan, in charge of the girls' work here. Girls entering the various events will be entered according to their weight. Entry blanks for the various events are being printed and will be issued to all who desire to take part in the contests. Prizes for first, second and third place winners will be awarded according to Miss Kiegan.

GO EAST TO GET SEED POTATOES

John Maw and Carl Olsen of
Plain City to Contract
For Farmers

John Maw and Carl Olsen of Plain City, left this afternoon for the Minnesota and Michigan potato districts to contract for seed potato for Weber county farmers. They expect to be gone about two weeks.

Mr. Maw said they will bring in about eight to ten carloads of seed potatoes of the Early Ohio and Irish Cobbler varieties, which, he said, were especially adaptable to growth in this vicinity.

The Plain City men will also inspect the crop in both Michigan and Minnesota and obtain the latest data on potato production.

The potato crop in the Plain City district this year will be about 200 cars said Mr. Maw. Of this number 140 cars have been loaded.

Community Program At Harrisville Home

Representatives of Community Service of Ogden will have charge of a program at the home of Nathaniel Speilne at the Harrisville road Thursday evening.

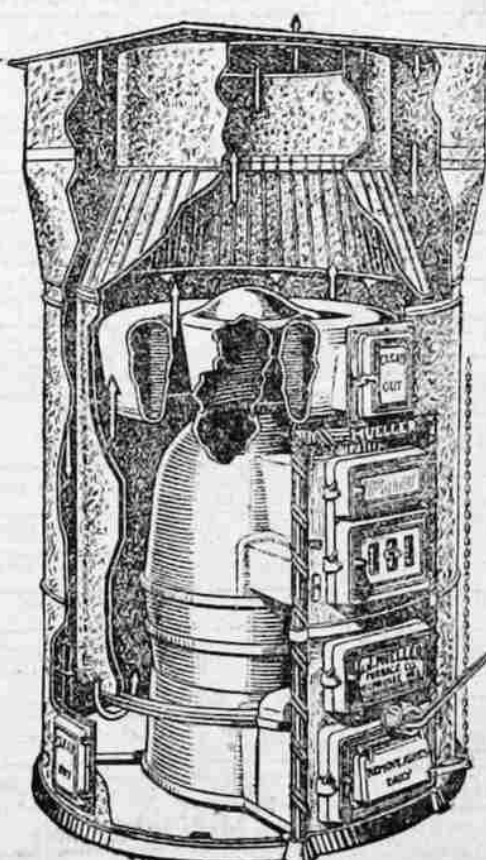

Community singing, readings and special numbers will be listed on the program. The sing numbers will be in charge of C. E. Dalby. It will be a general community get-together affair.

RESTRICT IMMIGRATION OF JEWS TO PALESTINE

LONDON, Sept. 20.—The conditions which will govern the entry of immigrants into Palestine are contained in dispatches from Jerusalem today. Each immigrant must possess a passport issued by the British consul of his city, ample proof that he will be able to sustain himself for at least a year and a certificate as to his physical fitness.

Sir Herbert L. Samuel, the British high commissioner here, is with right to expel any immigrant within five years from the date of his arrival if he has broken the laws of the country or if such expulsion is proven to be in the interest of the state.

Are You Enjoying Real Heating Comfort?

Is every room in your house comfortably warm no matter how cold the weather? Or are you still enduring the inconveniences and discomforts of stoves?

Do you know that the Mueller Pipeless Furnace will heat comfortably every room in your house through one register and will save you one-third to one-half on fuel? Don't let another day pass without finding out about this most remarkable and efficient of all heating systems. Learn how simple and safe it is to operate. No tearing up of floors or walls to install, no pipes in the cellar, no cellar too small for it.

The Mueller Pipeless is the only furnace which scientifically controls the circulation of warm and cool air, making a one-register heating system thoroughly practicable and efficient. It is guaranteed to heat to a comfortable temperature every room in your house
